

Brain Pop Jr

**Christine Walker
Caroline Garder and Terri Kerkman**

NPS Building: Bel Air Elementary School

Amount Requested: \$175

Itemized Budget: Yearly online subscription- \$175.00

Project Summary: Brain Pop Jr. is a website we use in our classrooms each year to invoke interest and curiosity in our students in the area of science and social studies. It alligns with the topics and standards we teach and since we don't have a science curriculum at this time, we pay for this website subscription each year out of our budget. The website has videos on a variety of topics, introduces important vocabulary and has follow up activities for the topics including games, quizzes, activities, writing, talking prompts, and lesson ideas. If you would like to see it, here is the link : <https://jr.brainpop.com/>

Timetable and Plan: We subscribe to this site yearly so we begin using it right away in August and continue to use it each week until the end of the year.

Teacher Comments: Helping our classrooms take this subscription out of our budget will allow us to buy more materials and hands on activities for our students. We would greatly appreciate your help!
