

# HUMAN SCIENCES & EDUCATION

## EDUCATION

### OVERVIEW:

Students in the Education Pathway will journey through several dual credit courses offered by Wayne State College. Students will learn about brain development, learning styles, and best instructional practices. At the completion of this pathway, students who are aspiring educators will have a significant head start in their post-secondary path. Students will be placed in classrooms across the district for their practicum experience.

### Possible Careers:

Teacher, school administrator, school counselor, paraeducator, coach, curriculum developer, special educator, and much more.
