

HEALTH SCIENCES ACADEMY

OVERVIEW:

The Health Sciences Career Academy offers students the opportunity to gain essential skill and knowledge in the areas of history, trends, legalities, and ethics of health care. In addition, students will possess foundational knowledge of infectious disease control and human development along with basic medical terminology used in healthcare today. Students will explore various career opportunities and earn certifications in our CNA course through hands-on training on safety and effective and caring services to patients in any health care setting.

Possible Careers:

Nurse, Sonographer, Athletic Trainer, Dental Hygienist, and Speech Therapist
