ELVPHD Risk Dial Guidelines and Recommendations for Schools

Green: Low/Stable Risk

- Low/stable does not mean "no risk". Precautions are still implemented as a means of remaining in an uninterrupted, in-person learning environment status.
- 100% of students on site for face to face learning
- NPS: **In Person Model:** All students in school buildings. Face coverings recommended for students and staff members. (May be required for some designated staff.)

Yellow: Moderate Risk

- Enhanced precautions are implemented as a means of remaining in an uninterrupted, in-person learning environment status.
- 100% of students on site for face to face learning
- NPS: **In-Person Model:** All students in school buildings. Face coverings strongly recommended for students and required for staff members.

Orange: Elevated Risk

- Further enhanced precautions are implemented as a means of minimizing disruptions to the in-person learning environment status.
- Hybrid Model with a combination of on-site/in-person instruction and remote (home-based) learning opportunities
- Students are divided into two learning groups with 2 days on-site/in-person instruction and 3 days remote/home-based learning opportunities each week.
- NPS: **Hybrid Model:** Students will alternate days of learning on site and remotely to lessen capacity. Face coverings required for students and staff members.

Red: High/Severe Risk

- Remote/home-based learning only
- No students will report for on-site/in-person learning
- NPS:**Remote Model:** All students learning remotely
