

DRAFT

Safe Return to In-Person Instruction Plan
To Be Discussed at the 6/24/2021 Board Meeting

Created June 2021--Please note that this plan will be reviewed at least every six months and may be adjusted as new information/guidance becomes available.

Table of Contents:

- 1. Introduction**
- 2. Team**
- 3. Guiding Principles**
- 4. COVID Transmission Level**
- 5. Layered Prevention**
- 6. Components**
- 7. Summary**
- 8. Resources**
- 9. Appendices**

Introduction

The Norfolk Public Schools' COVID-19 Return to School Committee developed our initial COVID-19 safety protocols during the summer of 2020. This plan allowed us to successfully return to in-person learning and remain in-person throughout the 2020-2021 school year.

This current plan was updated in June of 2021 for the 2021-2022 school year, based upon new guidance from the Center for Disease Control (CDC), the Nebraska Association of Local Health Departments (NALHD), the Elkhorn Logan Valley Public Health Department (ELVPHD), the Nebraska Department of Education (NDE), and the United States Department of Education. The format, components, and name have all been adjusted to meet the requirements set forth by the American Rescue Act (ARA).

Team

Dr. Jami Jo Thompson, Superintendent

Dr. Bill Robinson, Associate Superintendent of Business Services

Angie Baumann, Director of Human Resources and Accreditation -- and NPS Parent

Mary Luhr, Director of Student Programs

Beth Nelson, Director of Teaching and Learning

Erik Wilson, Director of Student Services and Safety -- and NPS parent

Candace Schmidt, Director of Communications -- and NPS parent

Mary Hoiem, Executive Assistant

Blair Brink, Nurse and NPS parent

Tom Asmussen, Head of Maintenance

Jamie Blum, Elementary Teacher

Kari Cronin, Elementary Teacher

Kimberly Erickson, Middle School Teacher, President of the Norfolk City Association

Melissa Anderson, Junior High Teacher

Sandy Dieckman, Senior High Teacher

Matthew Arens, Technology Specialist

Heidi Reynolds, NPS Parent

Leonor Fuhrer, NPS Parent

Alisha Rumans, NPS Parent

Melissa Jantz, Preschool Principal -- and NPS Parent

Angie Hausmann, Elementary Principal -- and NPS Parent

Trisha Andreasen, Elementary Principal and NPS Parent

Troy Berryman, Elementary Principal

Bruce Strong, Elementary Principal

Tracy Lichty, Elementary Principal -- and NPS Parent

Ryan Specht, Elementary Principal -- and NPS Parent

Haeven Pedersen, Elementary Principal

Chuck Hughes, Middle School Principal -- and NPS Parent

Dr. Jennifer Robinson, Junior High Principal -- and NPS Parent
Beau Viergutz, Junior High Assistant Principal-- and NPS Parent
Dr. Derek Ippensen, Senior High Principal -- and NPS Parent
Jason Settles, Senior High Assistant Principal -- and NPS Parent
John Erwin, Senior High Assistant Principal -- and NPS Parent
David Nelson, Senior High Dean of Students -- and NPS Parent
Dr. Jeff Hoffmann, Senior High Activities Director -- and NPS Parent

Guiding Principles

Vision:

It is the vision of the Norfolk Public Schools to be a top-performing school that provides outstanding educational opportunities for every student and is a source of pride and an asset to our community.

Mission:

The mission of Norfolk Public Schools is to prepare all students to pursue their goals for the future.

Motto:

NPS: Nothing Prevents Success!

Planning Purpose:

The purpose of this Safe Return to In-Person Instruction Plan is to provide a framework for the return of students to Norfolk Public Schools' facilities in a manner that maximizes student safety and learning.

This plan is dynamic in nature, meaning that it can be adapted and updated throughout the pandemic, based upon COVID incidences within our community and guidance from local, state and federal government and health officials.

COVID Transmission Levels

This plan has been developed based upon the COVID Transmission Levels/Positivity Rates experienced currently within our schools and our geographical region. Positive cases within Norfolk Public Schools have been miniscule in the last few months (February-June 2021), and health officials within the ELVPHD recently stated:

- "Case counts within our region have been extremely low."
- We can "begin the process of getting back to normal".

If COVID Transmission Levels/Positivity Rates increase, these plans may be revised to include additional COVID mitigation measures.

Layered Prevention

The CDC recommends that all schools implement and layer prevention strategies, including: the universal, correct use of masks, physical distancing, handwashing and respiratory etiquette, cleaning and maintaining healthy facilities, and contact tracing (in combination with isolation and quarantine). To quote the CDC, “All prevention strategies provide some level of protection, and layered strategies implemented at the same time provide the greatest level of protection. Schools should adopt prevention strategies to the largest extent practical--a layered approach is essential.”

Research supports this approach. Lessler et. al. (June 2021) found a strong relationship between the number of mitigation measures implemented and the risk of COVID-19 outcomes among adult household members of students. Each strategy implemented resulted in a 9% decrease in COVID-like illnesses within student households. Furthermore, the increased risk of in-person learning actually disappeared when seven or more mitigation measures were used.

Components

This plan addresses all of the components required by the American Rescue Plan, including:

- Universal and Correct Wearing of Masks
- Modifying Facilities to Allow for Physical Distancing
- Handwashing and Respiratory Etiquette
- Cleaning and Maintaining Healthy Facilities, Including Improving Ventilation
- Contact Tracing in Combination with Isolation and Quarantine, in Collaboration with the State, Local, Territorial, or Tribal Health Departments
- Diagnostic and Screening Testing
- Efforts to Provide Vaccinations to School Communities
- Appropriate Accommodations for Children with Disabilities with Respect to Health and Safety Policies
- Coordination with State and Local Health Officials, Including the Needs for Support and Technical Assistance to Implement Strategies Consistent to the Greatest Extent Practicable, with Relevant CDC Guidance (Operational Strategy for K-12 Schools through Phased Prevention/CDC)
- Ensuring Continuity of Services
- Consideration of Public Comments

Additional Components

The Norfolk Public Schools has also implemented strategies in the following areas, which are not required by the American Rescue Plan:

- Symptom Screenings
- Food Service

Universal and Correct Wearing of Masks

Mitigating Measures/Safety Protocols:

1. Face masks are encouraged for staff and students who have not been vaccinated.
2. Special face masks and bell covers will be available for band. They will be optional unless case levels rise.
3. Face masks may be required temporarily for staff and students within a specific building if COVID-19 cases rise and the administration believes that this safety precaution is necessary to prevent further spread and a possible school closure.

Rationale:

Center for Disease Control 5/13/2021:

Fully vaccinated people can resume activities without wearing a mask or physically distancing, except where required by federal, state, local, tribal, or territorial laws, rules, and regulations, including local business and workplace guidance.

Nebraska Association of Local Health Directors 5/14/2021:

Masks are NOT included as an action that schools should take in order to avoid COVID-19 outbreaks. Masks are included as an action that individuals can take to help their schools avoid COVID-19 outbreaks.

The Elkhorn Logan Valley Public Health Department 5/17/2021:

- Mask requirements are no longer listed as a guideline for schools. They are now considered an individual's responsibility.
- Because schools have less student density in buildings during summer school, this is a natural transition point in regards to moving away from masks.
- Not wearing a mask at school will not result in a quarantine.

Governor Ricketts' Executive Order, May 24, 2021

- Face masks and coverings are not to be required by any state agency.

CDC Director Dr. Rochelle Walensky, June 3, 2021

- I believe the guidance to wear masks in schools will be lifted before classes resume in the fall.

Modifying Facilities to Allow for Physical Distancing

Mitigating Measures/Safety Protocols:

1. Social Distancing will be practiced to the greatest extent possible, with a goal of maintaining 3 feet between students where feasible.
2. Nonessential furniture will be removed to maximize distance between students.
3. Student desks/tables will face in the same direction, where possible.
4. Physical (plexi-glass) barriers may be used for additional protection if desired.
5. Non-essential visitors and volunteers may be limited if case levels increase.
6. Six feet of social distancing may be encouraged for all students if COVID-19 cases rise and the administration believes that this safety precaution is necessary to prevent further spread and a possible school closure.

Rationale:

Center for Disease Control, May 15, 2021:

- In elementary schools, students should be at least 3 feet apart.
- In middle schools and high schools, students should be at least 3 feet apart in areas of low, moderate or substantial community transmission. In areas of high community transmission middle and high schools students should be 6 feet apart if cohorting is not possible.
- Remove nonessential furniture and make other changes to classroom layouts to maximize distance between students. Face desks in the same direction, where possible.
- Limit nonessential visitors, volunteers and activities.

Greta Massetti, leader of the CDC's Community Interventions Task Force -- as reported by the Associated Press-- March 19, 2021

- We don't really have the evidence that 6 feet is required in order to maintain low spread. Also, younger children are less likely to get seriously ill from the coronavirus and don't seem to spread it as much as adults do, and that allows us the confidence that 3 feet of physical distance is safe."
- We don't have a lot of evidence of the effectiveness of plastic shields or other barriers.

Handwashing and Respiratory Etiquette

Mitigating Measures/Safety Protocols:

1. Proper handwashing, cough and sneeze etiquette will be taught, reinforced and monitored.
2. If handwashing is not feasible, hand sanitizer will be provided and used.

Rationale:

Center for Disease Control, May 15, 2021:

- Teach and reinforce handwashing with soap and water for at least 20 seconds and increase monitoring to ensure adherence among students, teachers, and staff. If handwashing is not possible, hand sanitizer containing at least 60% alcohol should be used.
- Encourage students and staff to cover coughs and sneezes with a tissue when not wearing a mask and immediately wash their hands after blowing their nose, coughing, or sneezing.
- Support healthy hygiene behaviors by providing adequate supplies.

Cleaning and Maintaining Healthy Facilities, Including Improving Ventilation

Mitigating Measures/Safety Protocols:

1. High-touch surfaces will be cleaned frequently and routinely (at least daily and between uses when possible).
2. Shared supplies and equipment will be sanitized between uses.
3. Heating, Ventilation and Air condition setting will maximize ventilation and bring in as much outdoor air as possible.
4. Air filters will be changed at least once per semester.
5. Exhaust fans will be used, where available.
6. Windows will be opened, where feasible.

Rationale:

Center for Disease Control, May 15, 2021:

- Make changes to physical spaces to maintain a healthy environment and facilities, including improving ventilation and routinely cleaning high-touch surfaces.
- Improve ventilation to the extent possible to increase circulation of outdoor air, increase the delivery of clean air, and dilute potential contaminants. This can be achieved through:
 - Bring in as much outdoor air as possible.
 - Ensure HVAC settings are maximizing ventilation.
 - Filter and/or clean the air in the school by improving the level of filtration as much as possible.
 - Use exhaust fans in restrooms and kitchens.
 - Open windows in buses and other transportation, if doing so does not pose a safety risk.
- Regularly clean high touch surfaces and objects (for example: playground equipment, door handles, sink handles, toilets, drinking fountains) within the school and on school buses at least daily or between use as much as possible.

Contact Tracing in Combination with Isolation and Quarantine, in Collaboration with the State, Local, Territorial, or Tribal Health Departments

Mitigating Measures/Safety Protocols:

1. The ELVPHD has discontinued contract tracing, isolation and quarantines due to our low levels of transmission. If these are reinstated, NPS will cooperate with all efforts.
2. Norfolk Public Schools' normal health procedures will be followed:
 - a. Students and staff who are sick must stay home.
 - b. Students and staff must be fever free for 24 hours (without medication) before returning to school.
3. Students and staff will be encouraged to test for COVID if they have been exposed or they exhibit symptoms.
4. Students will continue to be excused for COVID-related absences.

Rationale:

Governor Ricketts' Executive Order, May 24, 2021

- The Governor discontinued all Directed Health Measures in the state of Nebraska (including contact tracing, isolation, and quarantines).

Elkhorn Logan Valley Public Health Department, June 1, 2021:

- We will not be sending out school notifications going forward (for positives for contacts of positives.)
- A confirmed positive individual following the isolation guidelines of 10 days past symptom onset is now a function of personal responsibility as there are no isolation regulations around COVID-19 in Nebraska with the lapse of the DHMs.
- We recommend that you follow the school's normal illness protocol and encourage the individual to test for COVID 19 if they have symptoms. Testing is up to the individual, but should be encouraged when warranted.

Diagnostic and Screening Testing

Mitigating Measures/Safety Protocols:

1. Students and staff who exhibit COVID-19 symptoms will be encouraged to stay home and to be tested.
2. If COVID levels rise, NPS will consult with the ELVPHD to determine if screening testing should be offered to students and/or staff.

Rationale:

Center for Disease Control, May 15, 2021:

- When schools implement testing combined with prevention strategies, they can detect new cases to prevent outbreaks, reduce the risk of further transmission, and protect students, teachers and staff from COVID-19.
- At all levels of community transmission, schools should offer referrals to diagnostic testing to any student, teacher, or staff member who is exhibiting symptoms of COVID-19 at school.
- Schools should advise students, teachers and staff to stay home if they are sick or if they have been exposed. Schools can encourage these individuals to talk to their healthcare provider about getting a COVID-19 test.
- Some schools may also elect to use screening testing. Screening testing is recommended for students in areas with moderate, substantial, and high levels of community transmission. It is recommended for staff at all levels.

Efforts to Provide Vaccinations to School Communities

Mitigating Measures/Safety Protocols:

1. Norfolk Public Schools provided the opportunity for on-site vaccinations for all staff.
2. Norfolk Public Schools provided information to parents and students regarding when/how they could receive vaccinations within the community.
3. Norfolk Public Schools will continue to monitor information regarding vaccinations and provide updates to staff, students and parents, when necessary.

Rationale:

Center for Disease Control, May 15, 2021:

- Vaccines are an important tool to help stop the COVID-19 pandemic.
- School officials and health departments can work together to support messaging and outreach about vaccination for members of school communities.
- School communication platforms can facilitate outreach to encourage vaccination of household members of school age children.

Appropriate Accommodations for Children with Disabilities with Respect to Health and Safety Policies

Mitigating Measures/Safety Protocols:

1. Students IEPs and 504 Plans will be followed. These may include accommodations that apply to the health and safety of students, relative to COVID-19.
2. Students with underlying health conditions may participate in remote learning if the school is provided with medical documentation indicating that this is necessary.
3. Students with disabilities may be prioritized for in-person learning if cases rise to the level where hybrid or home-based learning is required.

Rationale:

Center for Disease Control, May 15, 2021:

- Federal and state disability laws, to the extent, applicably require an individualized approach for students with disabilities consistent with the students' IEP or 504 Plan.

- Schools should consider prioritizing in-person instruction for students with disabilities who require special education and related services directly provided in school environments.
- Families of students who are at increased risk of severe illness should be given the option of virtual instruction regardless of the mode of learning offered.

Coordination with State and Local Health Officials, Including the Needs for Support and Technical Assistance to Implement Strategies Consistent to the Greatest Extent Practicable, with Relevant CDC Guidance (Operations Strategy for K-12 Schools through Phased Prevention/CDC)

Mitigating Measures/Safety Protocols:

1. We will continue to collaborate with our local and state health department on a regular basis, monitoring case levels and new guidance, and implementing or revising strategies when necessary.
2. This plan will be revised at least once every 6 months, per ARA requirements.

Rationale:

Center for Disease Control, May 15, 2021:

- School administrators, working with local public health officials, should assess the level of community transmission to understand the burden of disease in the community. The transmission level for any given location will change over time and should be reassessed weekly for situation awareness and to continuously inform planning and decision-making.
- Information about levels of community transmission should be combined with information about cases in schools and implementation of prevention strategies to guide decision-making. Implementation of prevention strategies should be intensified if indicators worsen.

Ensuring Continuity of Services

Mitigating Measures/Safety Protocols:

1. Our goal is to continue to provide in-person learning to all students, addressing their academic, social, emotional, and mental health via the many programs in place within

our schools. We will return to a regular school year schedule that follows our normal curriculum, assessment, and PLC cycles.

2. We have developed a comprehensive PK-12 transition plan which includes on-site and virtual interventions and services for students, as well as before and after school tutoring.
3. If COVID cases rise significantly and we are required to close a school, every effort will be made to provide these services virtually, all special education services will be provided according to students' IEPs, and families will be provided with access to free meals.
4. Additional Chromebooks and internet hotspots have been purchased in order to ensure equitable access for students.

Rationale:

Center for Disease Control, May 15, 2021:

- Prolonged periods of remote or virtual learning can have negative effects on educational progress for students, potentially slowing or reversing academic gains.
- Safe, in-person schooling can also offset the negative social, emotional and mental health impacts of prolonged virtual learning.
- Students from low-resourced communities, English learners, and students with disabilities might disproportionately experience learning loss due to limited access to remote learning technology and fewer learning support symptoms and services outside of schools.

Consideration of Public Comments

June 9, 2021:	Draft sent to administrators for review
June 10, 2021:	In person discussion of the plan by administration, including suggestions for improvement, concerns, etc.
June 11, 2021:	Draft sent to Return to School Committee for review
June 15, 2021:	The Return to School Committee met in person to discuss the plan, including suggestions for improvement, concerns, etc.
June 16, 2021:	The revised plan was sent to the Return to School Committee for review.
June 22, 2021:	The revised plan was posted on our website with a link for public feedback.
June 24, 2021:	The plan was presented to the NPS Board of Education at a public meeting where public comments were accepted.
June 25, 2021:	The final, board approved plan was posted on the NPS website: www.norfolkpublicschools.org .

Symptom Screenings

Mitigating Measures/Safety Protocols:

1. Families will be encouraged to screen students for COVID symptoms, and follow the ELVPHD's guidance regarding testing and quarantine.
2. Norfolk Public Schools' normal health procedures will be followed:
 - a. Students and staff who are sick must stay home.
 - b. Students and staff must be fever free for 24 hours(without medication) before returning to school.
3. If COVID cases rise, on-site symptom checks may be reinstated for everyone entering an NPS facility.

Rationale:

Elkhorn Logan Valley Public Health Department, June 1, 2021

- We recommend that you follow the school's normal illness protocol and encourage the individual to test for COVID 19 if they have symptoms. Testing is up to the individual, but should be encouraged when warranted.
- The decision to pre-screen individuals before entering school buildings can be determined by the school/district. Pre-screening the masses is not something that I would imagine too many institutions will elect to do unless there is a concerning increase in community transmission levels or concerning levels of illness within a particular entity.
- During the 2020-2021 school year, 518,899 symptom checks were performed, with only 5 students exhibiting COVID symptoms. This is 0.001% or 1/1000th of a percent.

Food Service:

Mitigating Measures/Safety Protocols:

1. Water fountains will be reopened. However, students and staff may bring water bottles to school. Refilling stations will be available throughout the day.
2. Self-service food options will not be offered. Items will be pre-packed and/or served to students via LSI staff.
3. If cases rise to the level where hybrid or home-based learning is required arrangements will be made for families to continue receiving free student meals.
4. See Appendix A for additional information.

Rationale:

Center for Disease Control, May 15, 2021:

- Avoid offering any self-serve food or drink options such as hot and cold food bars, salad or confinement bars, and drink stations.
- Schools should develop plans to continue meal service provision, such as free breakfast and lunch to families for every learning mode, including in-person, hybrid, and virtual.

Elkhorn Logan Valley Public Health Department, June 14,2021:

- “If your business has a water fountain that has been closed down during COVID-19, we are now encouraging these to be opened for use.”

Summary

Norfolk Public Schools is committed to providing students and staff with a safe, in-person learning environment. The strategies outlined within this plan will be implemented to mitigate the risk of COVID-19 spread within our schools. These strategies will be revised periodically (at least every 6 months) based upon COVID cases within our schools and community and any new research/evidence that becomes available.

Appendices

Appendix A: 2021-2022 Additional Food Service Information

Norfolk Public Schools and Lunchtime Solutions will resume food service operations with fewer Covid-related changes in place for the 2021-22 school year. These operations may be adjusted as needed. Lunchtime Solutions will continue to follow enhanced sanitation and safety protocols and will evaluate frequently during the school year. Due to continued food shortages, menu changes may occur.

K-4:

Breakfast and lunch meals will be served in the cafeteria with some exceptions (based on individual school needs). Two entree choices will be offered. Fruit & Vegetable Bar will be offered and served by a staff member (no self-serve option). Milk cartons and disposable utensils will continue to be placed on trays. Condiment packets or bottles (to be served by a staff member) will be available. Farmers Markets will return when possible. Payments will continue to be made online or at the elementary school office.

5-6:

Breakfast and lunch meals will continue to be served in the cafeteria with additional entree choices available. Fruit & Vegetable Bar options will be offered and served by a staff member (no self-serve option). Milk and utensils will continue to be placed on trays as needed. Monthly chef demos will take place at the Middle School. Farmers Markets will return when possible. Condiment packets will be available. Payments will continue to be made online or at the Middle School office.

7-8:

Breakfast and lunch meals will continue to be served in the cafeteria with additional entree choices and packaged options available. Fruit & Vegetable Bar options will be offered and served by a staff member (no self-serve option). Milk and utensils will continue to be placed on trays as needed. Monthly chef demos will take place at the Junior High. Farmers Markets will return when possible. Condiment packets will be available. Payments will continue to be made online or at the Junior High school office.

9-12:

Breakfast and lunch meals will continue to be served in the cafeteria and Panther Pit with additional entree choices and packaged options available. Fruit & Vegetable Bar options will be offered and served by a staff member (no self-serve option). Milk and utensils will continue to be placed on trays as needed. Chef Demos will take place at the High School Cafeteria. Farmers Markets will return when possible. Condiment packets will be available. Cash will be accepted at POS systems with sanitizer available for staff and students.
